## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7, 9, 10, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 14, it is unclear how the edge of the front panel section is coplanar with the edge of the second planar structure.

In claims 1 and 20, it is unclear if the applicant is positively claiming the tire in combination with the insert.

In claim 5, the phrases "the length of said flute for said front panel section" and "the length of said flute of said back panel section" lacks antecedent basis.

In claim 10, it is unclear how the pocket is attached to both the front panel section and the back panel section.

In claim 20, it is unclear what is meant by the phrase "said tabs...are not pivoted to a non-flexible position within the tire."

***Allowable Subject Matter***

3. Claims 22-24 are allowed.
4. Claims 1-7, 8-10, 12, 14-17, 19-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Amodeo, Jr. (US6641225) and Theadgill (US6692085) teach a tire shield. Scherotto (US1434155) teaches a display device.
